

Course offer for exchange students

Bachelor Health Informatics (B HI) & Master Digital Health (M DH)

- B HI: 1st, 3rd, 7th semester courses will be offered
- M DH: 1st, 3rd semester courses will be offered
- **Lecture schedules** (published by the end of September)
 - [Faculty schedule](#)
 - You need your DIT user account for login to view the lecture schedules!
- Module handbooks: [Module handbook B HI & M DH](#)

Important notes:

Exchange students enrolled in one of these study programmes can select a mixture of courses of the two programmes (see tables).

If you choose subjects from different semesters, please note that this might lead to overlaps in your schedule.

The lecture schedule might change weekly as classes can also be offered as blocked courses. Please check your schedule regularly for updates.

All exchange students will do their final course selection during the first week of the winter semester.

Deadline for submission of the Learning Agreements: by mid October 2026.

Language classes and electives for exchange students:

In addition to faculty courses, exchange students can participate in German language classes during the semester.

For students without any German language skills, an online intensive course will be offered before the start of the semester (date tba.)

Participation in other language courses is subject to the availability of free spots. The Language Centre offers a variety of electives which can be selected right before the semester start (more information will follow).
